

Fresh Air Dehumidifier (Ceiling or duct mounted)

TRDF-40

### Main Features:

- Ultra-thin ceiling mounted type fresh air dehumidifier, reducing excessive humidity and bring fresh air to the room to solve indoor moisture problem and ensure adequate oxygen supply
- Adopting low noise reciprocating compressor, long term service life
- Using high efficiency copper clad aluminum heat exchanger, with good pressure resistance and high heat exchange efficiency
- The control system is separate from the equipment, and the display screen can be independently installed on the wall

### Technical Specification

Dehumidifying Capacity	40L/day (35°C,80%RH)
Circulating Air	500m <sup>3</sup> /h or 294 CFM
Fresh Air Volume	0-200m <sup>3</sup> /h
Voltage / Frequency	220V/50Hz
Power Input (W)	780W
Max. Current(A)	3.5A
Color	Optional
Static Pressure	70Pa
Working Temperature	5-38°C
Drainage Method	Flexile hosepipe
Fresh Air Outlet	97mm*1
Dry Air Outlet	146mm*2
Wet Air Outlet	97mm*1
