Stainless Steel Scoop

S.S SCOPE

(4 PCS per SET)

0.25 Kg, 0.50 Kg., 1 Kg & 2KG

GMP model nor butt welding and easy to clean

PharmaScoops are a range of scoops (spades) for use with powders and granules. They are made from heavy gauge 316L stainless steel and so have excellent corrosion resistance and strength. Over 11 sizes are available from stock from very small to very large. They are ideal for all types of work from the laboratory to production.

Sampling Systems' range of PharmaScoops were developed over 20 years ago after a huge amount of testing and development work with the pharmaceutical industry. We wanted to have a high quality powder scoop that would be acceptable to the pharmaceutical industry. They are now used in thousands of companies around the world.
